1937 - WINTER - 1938

Gladiolus Price List

C. E. SHEELY, Proprietor

222 Godfroy Ave. - Monroe, Michigan

MAY WE take this means of thanking each and every one of you who ordered bulbs from us this last year and for the many kind letters that we have received.

If it were only possible to answer each of your letters personally we would certainly do it, but that is an impossibility. By the many fine comments we have received about the Key Chart system that we put in our catalogue last year, it must have been some help to you in selecting what you wished most. Letters have come in from coast to coast and from Mexico to well north in Canada asking us to continue it and to give the new varieties full Key Chart lists wherever possible.

We are doing that and giving a complete chart to each variety that we feel the traits are more or less permanently set in. However, some of the newer ones we have not grown long enough to be accurate on, and even a few of the older varieties we have changed a little this season.

We have had a fine growing season with plenty of moisture (sometimes too much) and have a fine crop of bulbs, and can only hope for our share of your business again this year. Our bulbs are all planted by hand, dug by hand, cleaned by hand, and graded by hand to insure you getting just as nice a bulb as can be produced. No more bruising than is necessary. Every bulb is removed that does not look just right etc., all by hand, so that you receive only A-1 bulbs. Ask any of our customers, they can tell you.

Very truly yours,

HOBBY GLAD GARDENS

PLEASE READ CAREFULLY

The letter first following the variety such as (K) and (Pf) etc. is abbreviation for the originator of that variety such as (K) Kundred, (Pf) Pfitzer, etc.

Everything we sell is fully guaranteed in every respect, and any error or omission will be promptly and liberally adjusted, if reported. You are at liberty to return any shipment if it does not fully meet your expectations, and purchase price, plus return charges, will be promptly refunded.

Safe delivery of all orders is guaranteed. This includes damages by freezing, so you need not hesitate to order in fall or winter. We will not forward shipments by mail unless weather is such that we feel they can go through to destination safely.

SECOND CHOICE, PLEASE

Sooner or later, some kinds and sizes of Glad bulbs will be sold out. Saves a lot of time and correspondence if you will kindly name a few varieties that we may send in case sold out of any on your order. Or at least mark your order sheet if we may send another size.

TERMS

Terms are cash with order except that, if desired, a deposit of 25% will hold order until March 1st, when it will be sent C.O.D. for any amount remaining unpaid at that time.

Charges will be prepaid on all shipments taken from General List to points in the United States. All wholesale orders F.O.B. Monroe.

DISCOUNT

On Orders Taken from Retail Lists

Will allow cash discount of 5% on orders of \$5.00 to \$10.00; 10% on orders of \$10.00 to \$25.00, and will give extras on all orders, so that our customers will all secure additional discount in the way of extra bulbs.

SPECIAL NOTICE

Do not split quantities as listed. Where a variety is listed at 2 for 15 cents do not order 1 or 2 at a lower price. There is no profit in any item of less than ten cents and very little at that price.

In the event that we are out of one size in a variety, we will substitute the next size in sufficient quantity to cover price, unless otherwise instructed. Just note on your order, "Don't Substitute," if you want sizes ordered only. We never substitute on varieties unless permitted to. Our aim is to please our customers.

EARLY ORDERS

Early orders are entirely practical and sensible. They insure your receiving the varieties and sizes you want, and they also secure for you the "pick of the crop," and they help us, by relieving our storage space. Many good Glads will be in great demand and hard to find later in the season, and prices are advancing.

While we like to ship in the fall, we will be glad to hold your order for later shipment if desired.

Please note carefully whether variety is priced "each" or "per 10" or "100".

Five may be ordered at the ten rate. Twenty-five at the 100 rate.

All stock offered and orders accepted subject to prior sale.

No order accepted for less than \$1.00.

WE ARE MEMBERS OF THE MICH. GROWERS ASSOCIATION. Thus assuring you of certified, young, firm and clean stock.

TO LARGE BUYERS

Growers, dealers, etc., who can use large quantities of a variety or a good big order of different varieties of bulbs or bulblets please mail in to us the quantity and kinds you want, and we will quote you on the whole or at least what we can furnish. Chances are we can save you money. **THIS IS FOR LARGE LOTS SO PLEASE DO NOT SEND IN LISTS OF A FEW BULBS FOR SPECIAL QUOTATIONS.**

THE DRY WEATHER TWINS

The cut or picture of Bit O' Heaven on the back of the key chart is self explanatory from the following:

I have forwarded by separate mail a copy of the newspaper "le Canada" in which you will see a picture of your gladiolus, Bit O'Heaven, that you displayed at our second annual Exhibition, August 25th and 26th in the Ritz Carlton, Montreal. This photo was taken late in the evening of the 26th.

What a severe test for cut gladiolus.

Transported by auto almost four hundred miles, exhibited two full days in a show room.

That this variety, Bit O'Heaven, was outstanding in its freshness and vigor was the remark of all those that saw it at our Show.

I am fully convinced that this variety has a great future and will become a favorite with both amateur and professional growers alike.

Sincerely yours,

Charles H. Wilson, President,
Province of Quebec Gladiolus Society.

Bit O' Heaven

A+, B+, C+, D, E+, F, G+, H+, I+, J+, K+, L

Bit O' Heaven is one of the late Prof. Crow's seedlings which we named and introduced in 1935 and which we are very proud of. Its vivid orange coloring with eight or ten open at once is something you cannot forget. Tall, straight spike (around five and a half feet high) and facing of florets always good. The slight hood of the floret adds rather than detracts from the beauty of this Glad. The soft orange yellow throat blends so perfectly with the outer coloring that it does not seem real. Have never seen a flake or streak on any of the blooms that we have had.

Streak of Butter

A+, B+, C, D, E, F—, G+, H+, I+, J+, K+, L

Possibly one of the tallest Glads grown under normal conditions. We have never had a spike of Streak of Butter that has gone under five feet from a No. 3 Bulb or larger, always straight and with from six to eight florets open at a time.

The clean cut buff coloring blending to a light salmon at the edge with the soft golden throat makes a blend that is liked by all. The back of the petals have a salmon pink reflex which is perfect under artificial light.

For massive basket work Streak of Butter stands supreme.

In three short seasons the fame of the Dry Weather Twins has spread to practically every country where good Glads are grown. Canada, England, Holland, Germany and even far off Australia have sent us fine reports of the behavior of the Dry Weather Twins. You too will like them. Why not have them in your garden this season and meet them.

OUR MAILING LIST

Our mailing list is revised each year, as you well know it is useless for us to send you catalogues each year if you are no longer interested in Glads.

We are not stingy with our catalogues and will send you one if you are only interested and we know it. So there are two ways to let us know if you still want to remain on our mailing list. One is to send us an order, the other is to drop us a line asking for catalogues.

We do not expect an order from every one every year, so if you are still interested and do not receive a catalogue just let us know and we will send one P.D.Q.
